ABOUT US

TP Industries introduces you to a wide range of helmets for Motorcyclists Safety under its brand names **GLIDERS** and **NXT**. The company places Quality and Safety first in its priority list for every production it undertakes.

Founded in 1993, **GLIDERS** is associated with manufacturing of motorcycle helmets and accessories for over 25 years. Proudly based in India, we manufacture products that are beautifully detailed, particularly distinguished by standards of safety, quality, aesthetics, comfort and are reasonably priced. Gliders increases its limits to satisfy the increasingly demanding motorcycle enthusiasts every day.

In 2005, the company further expanded its product line up by introducing sporting and other safety helmets for its consumers under its brand **NXT**. The company has distinguished its range with a wide variety of color options to match the consumer's requirement.

Expertly guided by the entrepreneurship and passion that has always distinguished Mr. Rajesh Thakkar and his family, the **TP Industries** Team takes the field every day, armed with skills and expertise to create products that are always at the top. We also believe the main strength of the company lies in the comprehensive range of products and an extensive network of dealers & distributors across the country. Behind the growth of the company is its philosophy of relationship.

Our mission through all of this is to keep you safe as you ride the way you want, whether that's on the road or off of it, because '**YOUR SAFETY IS OUR CONCERN**'.

VISORS

63

ICONS DESCRIPTION

QUICK RELEASE
Quick change face shield system.

TOOL LESS VISOR REMOVAL
No tool necessary to assemble or disassemble the visor.

2.0 MM THICKNESS
The visor is up to 2mm thick, thus providing excellent protection in the event of an accident.

ABS COMPOSITE SHELL
Constructed from injected thermoplastic resin.

ANTI SCRATCH
Scratch resistant polycarbonate visor.

HELMET BAG
Keeps your helmet as new, when covered. Makes easy to transport it when off the bike.

AERODYNAMIC SHAPE
Aerodynamics are equally important as it helps the helmet to cut through winds easily.

MIRROR VISOR
Mirror finish optical shields are coated with a metallic compound to give a unique appearance.

VISOR LOCKING
Visor locking via a latch in the closed position. It allows secure locking of the visor even at high speed.

DUAL VISOR SYSTEM
Adjustable inner sun visor allowing for ultimate adaptability in all light conditions with the flick of a switch.

EXTENDABLE PEAK
Extendable peak according to the sunlight conditions.

ISI CERTIFIED
Meeting and exceeding the Indian helmet safety standard.

MICROMETRIC BUCKLE
Chinstrap with micrometric quick release buckle. Easy tightening with one-hand release.

CABLE LOCK MECHANISM
Cable lock mechanism in open face helmets secure your helmet while you are away. Provided you use a good quality cable lock.

ANTI-BACTERIAL LINING
Anti- bacterial and anti-odor inner lining. Because interiors significantly affect a helmet's comfort.

WASHABLE LINING
Fully detachable and washable comfort liner.

LIGHT WEIGHT
One of the biggest factors in a helmet's performance and comfort levels are its weight.

MULTI DENSITY EPS
Multiple density inner polystyrene.

INTEGRATED SPOILER
The integrated spoiler stabilizes the helmet at high speeds by forcing the wind to flow in the right direction when in contact with the helmet upper surface.

ULTRA WIDE VISION
Safety is not only defined by protection factor of the helmet itself, but also by the time that the rider needs to predict a danger and react. Therefore, an ultra-wide viewport with no blind spots, assures a maximum vertical and peripheral field of vision.

EXTENDED VISOR
The long and wide visor covers and protects the face to below the level of the chin.

MAGNETIC VISOR
Magnetically fastened optical shield provides wraparound eye protection with exceptional optical clarity, and it's easy to flip or remove with one hand when appropriate.

DYNAMIC AIR VENTILATION SYSTEM
Air intakes are made with low profile to just allow the right amount of air without the noise associated to bigger air intakes.

ANTI FOG VENTILATION SYSTEM
Front vent of the helmet directs air flow directly onto the visor's surface and hence boosts demisting during conditions of extreme humidity.

FIBRE GLASS SHELL
A blend of carefully selected pre-preg weaves to create a great strength to weight ratio shell construction.

FLIP UP
Extremely versatile model built by keeping in mind the safety features of a full face helmet but with the possibility to move to the comfort of an open face.
